About Us

BSK Health Services is an occupational health services organization which optimizes productivity through sustainable management of employee health. We aim to optimize productivity by ensuring that companies and institutions prioritize employee health and basic occupational health and safety programs. For example, medical surveillance programs which assist in minimizing the impact of occupational diseases on a company's profits.

BSK health services can ensure that companies comply with various health and safety legislation, such as:

- Occupational Health and Safety Act
- Mine Health and Safety Act
- National Road and Traffic Act
- Merchant Shipping Act
- Railway Safety Regulator Act
- Civil Aviation Act
- Basic Conditions of Employment Act
- Compensation for Occupational Injuries and Diseases Act
- Labour Relations Act
- National Health Act

Working together with BSK Health Services ensures that your company is globally competitive guaranteeing a healthy and motivated work force, who can trust that their health is prioritized.

Our Vision

Building a globally competitive workforce in a state of complete physical, mental and social wellbeing geared towards optimal productivity.

Our Mission

BSK health services aims to provide high quality and reliable occupational health services through international best practice and cost effective methods.

Values

- RELIABILITY
- VALUE FOR MONEY
- INTEGRITY
- PROFESSIONALISM
- HOLISTIC HEALTH CARE
- CONVENIENCE

Structure

BSK health services is a level 1 BEE company. Its director, Dr Khoza, is a registered occupational medical practitioner who is also member of the South African Society of Occupational Medicine (SASOM).

The company has a compliment of occupational health nurses and technicians who are very strategic and can manage all tasks presented to them.

BSK health services is an environmentally friendly company. It currently uses high quality equipment backed by OccuPlus occupational health software which minimizes the use of paper and contributes towards sustainable development by minimizing its carbon footprint.

BSK Health Services Goals

- To be the best occupational health service provider,
- Provide services which are up to date and in line with best international practice
- Convenient service to clients
- Minimum disruption to production
- Optimal employee health
- Minimal absenteeism in our clients' companies
- Increase client's competitiveness as a result of highly motivated staff compliment
- Increase client's revenue growth prospects as a result of compliance leading to access to new opportunities which require supplier compliance

Growth Strategy

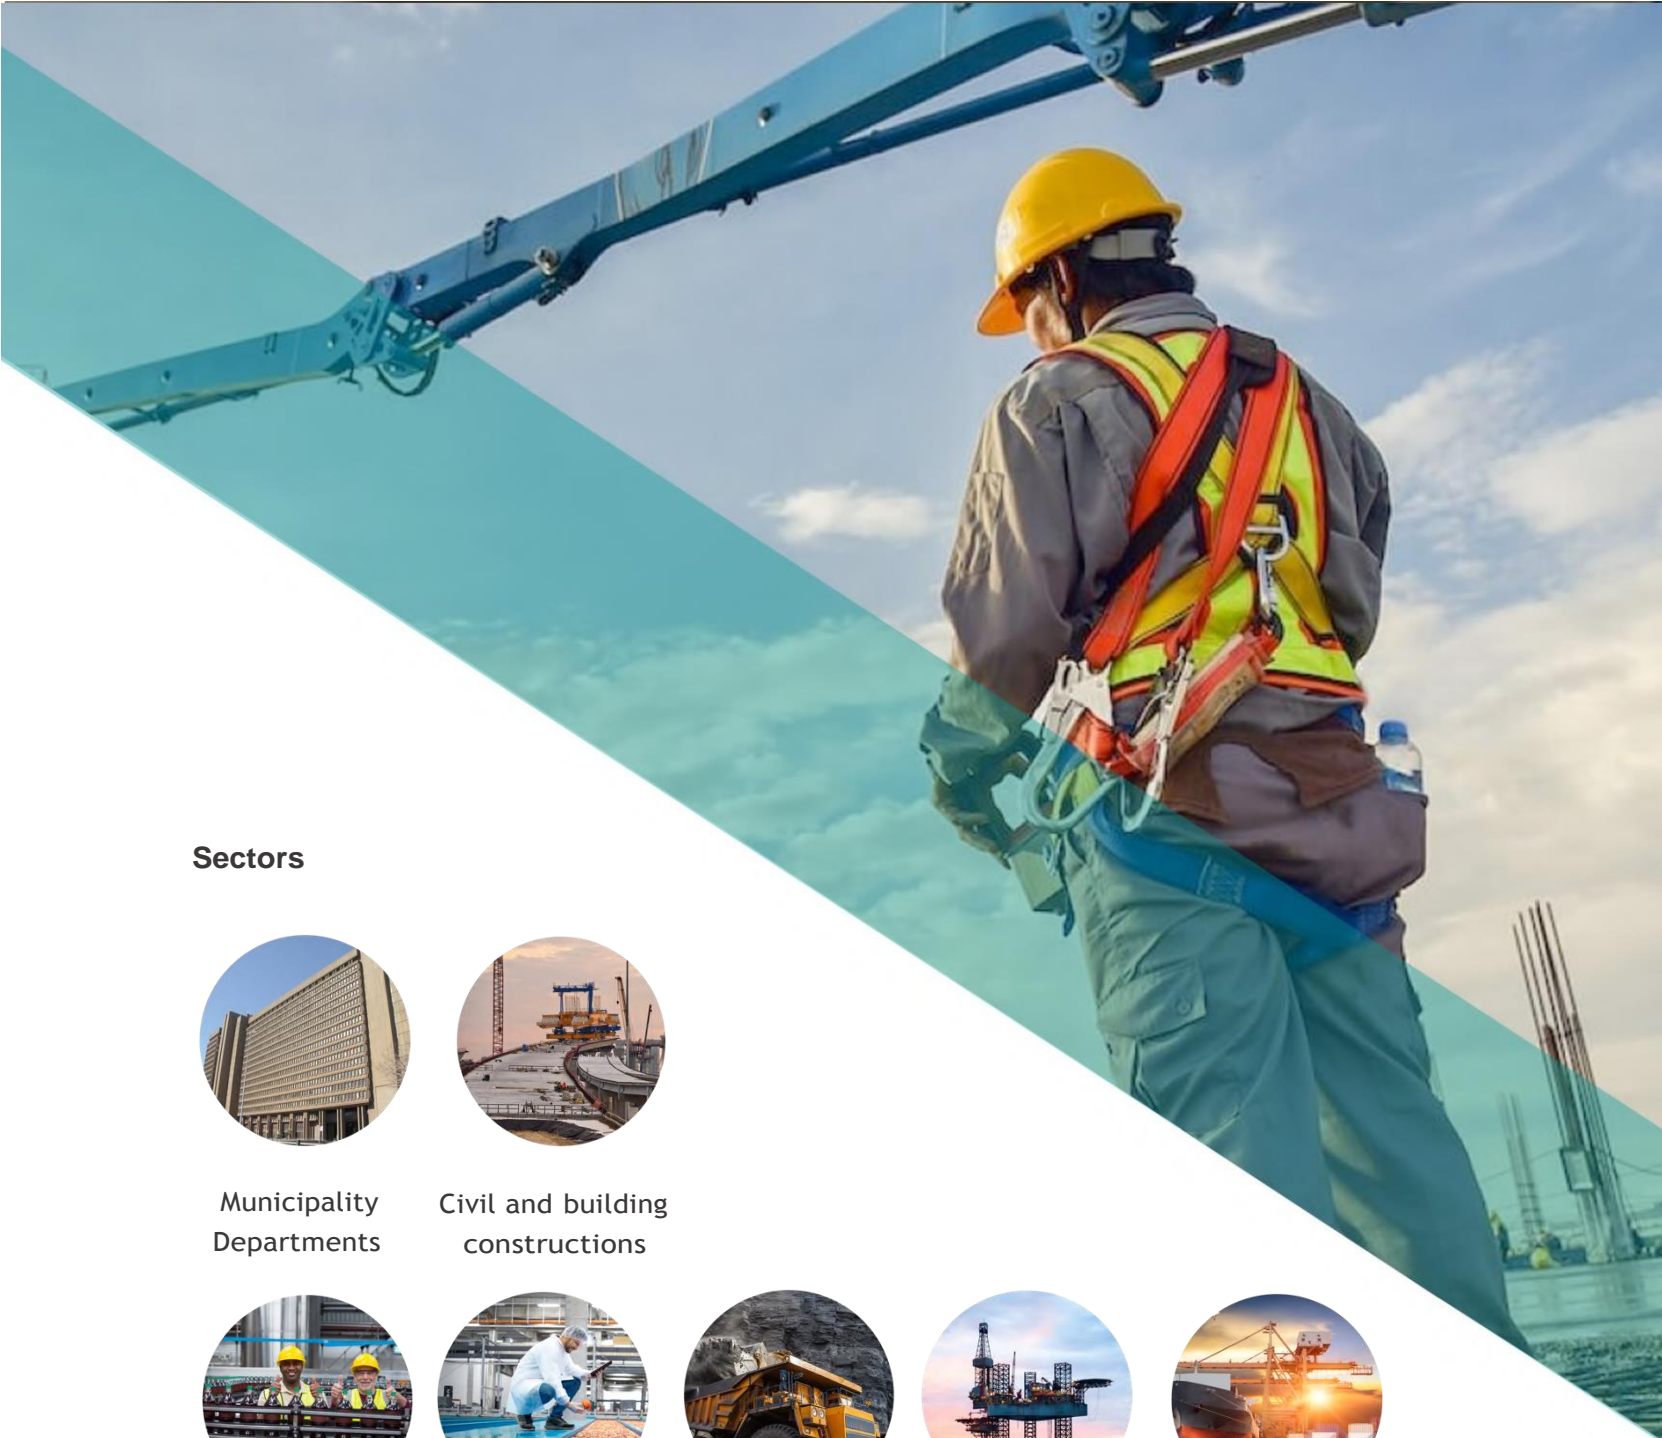

- BSK Health services aims to improve efficiency and continuity to prospective clients who are already compliant with legislation.
- Promote awareness of occupational health services and its benefits towards legal and regulatory compliance hence improving clients' company's growth prospects
- Provide cost effective occupational health service
- Provide convenient on site and mobile health service
- Through the above we will add more clients who were previously unaware of such requirements and make them compliant through convenient services.
